CI-compliant menu/drinks card • Flower decoration • and more...

allergens & additives

Attention, in case of severe nut allergy we unfortunately cannot take the risk of preparing 100% nut-free dishes for you. We frequently use various types of nuts in our kitchen. The risk of traces / cross-contamination and thus the responsibility for your health is too great for us.

Similarly with (severe) coeliac disease. Please speak to our service staff, we also have gluten-free bread available (takes approx. 20 minutes), but it is baked in the same oven/environment. Despite great care, we can never 100% rule out traces/cross-contamination. We also ask you to do a final "allergy check" with our service when your food is served, to rule out mix-ups! Thank you.
