allergens & additives

Please note: if you have a severe nut allergy, we unfortunately cannot take the risk of preparing 100% nut-free dishes for you. We frequently use various types of nuts in our kitchen. The risk of traces / cross-contamination and thus the responsibility for your health is too great for us.

The same applies to (severe) coeliac disease. Please speak to our staff - we do have gluten-free bread available (takes approx. 20 minutes), but it is baked in the same oven/environment. Despite great care, we can never 100% rule out traces/cross-contamination. We also ask you to do a final allergy check with our staff when your food is served, to rule out mix-ups! Thank you.

Allergens

Gluten-containing cereals:
